**Attachments:** Pesticide Rationale 10.14.14 v1 \_ac.docx

Hi Sheila, Elizabeth, and Peter - I'm sorry to send this so late, but wanted you to have a copy of the draft pesticides rationale. Sheila and Elizabeth, I did add something on Triangle Lake, so if you can look at that paragraph, I'd really appreciate it. Peter, you can see the paragraphs on the Alsea.

If you're able to get something by Monday, that would be fantastic. But I realize it's not much time. We're sending another version out on Tuesday, October 21 for senior managers and the legal team to review. So if you need more time, we can still put in your comments.

Thanks for your help - Jenny

Jenny--

My comments and revisions to the rationale are attached. For simplicity, I worked from a clean version with all the changes accepted and went ahead and deleted old comments that were not relevant any more.

Since I drafted the Response to Comments, I did not review that document. However, now that the rationale is falling into place, we'll need to go back some of the statements I flagged in the RTC to make sure they are still accurate based on the finale draft rationale.

Hi Everyone, we're getting close to the home stretch. I'm looking to get comments from the team by Monday, October 20 at noon on the Oregon CZARA Pesticide Rationale and Response to Comments. This is what will be in the Federal Register and released to the public. I'll be compiling comments, then they'll be added to the whole CZARA package for the managers and legal team to review. Linda, I assume OGC from the pesticides program will be looking at this. FYI, OGC can also review this after October 20 with the rest of the legal team if he/she isn't free to review it by October 20.

You've all commented on past drafts of the Rationale and Response to Comments. There are some changes to the rationale, but not a huge difference from previous versions. I've either added your comments and/or responded to them in the comment field. I haven't reviewed the Response to Comments yet, but if you remember, we all worked on many of these, so I expect there not to be huge changes (I hope).

Thanks again, and let me know if you have questions. Looking forward to seeing your comments! - Jenny
